'Making Education Work'

Transforming education for youth employment in the agri-sector

Prepare
the next
generation of
entrepreneurial
and hands-on
graduates for
the agriculture
sector!

Welcome to our three-month online learning programme for lecturers, instructors & researchers at universities or vocational training centres in agriculture and rural development! This course is now given fully online. You will participate in collective online sessions, do assignments, get on the job coaching to help you implement your skills in your own context.

The agricultural sector is in dire need of highly-skilled graduates who can bridge the gap between theory and practice and link research to the private sector. At the same time, it is hard for young people to see a future in the sector and realize the untapped potential of stepping into agriculture.

'Making Education Work' will help you gain the skills to have classes full of proactive students who are eager to learn, see the potential of agriculture and are ready to enter the labour market!

This iCRA course builds upon your knowledge and research, helps you discover new possibilities and partnerships and gives you the skills to develop exciting curricula and research that allows students to translate knowledge into action.

"The course is absolute spot on with adequately exercise to stimulate your interest. There is no dull moment and the core of the issues bedevilling the educational, research and outreach sector are adequately addressed."

*- Obokhai Kess Asikhia,
Nigeria March 2018*

What kind of course is this?

The course Making Education Work is a three-month online learning programme. It combines the advantages of online learning doing assignments, getting individual feed-back and on the job coaching.

In the group training you will learn from people from different contexts, get exposure to other realities through case studies. During the group training you will also be exposed to interactive learning and facilitation techniques.

The digital instruments will allow you to learn in the time that suites you best. It will also assure application and adaptation to your own reality, while being coached by trainers with a wide range of experience.

What you will learn

- Conduct a labour market assessment and define a competence profile that will include prospective employers' needs in your courses.
- Design sessions where students practice the skills they need to get a job.
- Give a convincing presentation to your students using video tools.
- Organise real-life learning events for your students and combine them with service delivery to farmers, agri-businesses or civil society organisations.
- Engage various stakeholders in research activities and position yourself as an initiator of change.

iCRA courses make Education, Innovation and Agribusiness work for stronger agriculture value chains. With 35 years of experience as a course provider, iCRA helps you to develop the knowledge, skills and attitudes necessary to work across disciplinary and organisational boundaries, engage public and private sectors and improve livelihoods along the value chain.
